

Adoozy POWER
ON THE GO

USER GUIDE

Staying connected and
powered up just got easier.

ADOOZY POWER ON THE GO

Welcome to the world of **ADOOZY** — where staying connected is effortless.

Built for the way South Africans live, work and move, ADOOZY Power On the Go keeps reliable backup power close by whenever you need it most.

With built-in USB, Micro USB and Lightning cables included, charging your devices is quick, easy and cable-free.

Whether it's in your kitchen, living room, bedroom or office, your docking station keeps fast-charging power banks powered up, organised and ready to grab on the go.

SMART. SIMPLE.
ALWAYS READY.

and Power Banks**

DEVICE SETUP

BEFORE YOU START

- 
Plug in your Docking Station
 Place your docking station on a flat surface near a plug

- 
Download the ADOOZY app
 Scan the QR code on the docking station or download the ADOOZY app from:

- 
Create your Account
 Register your profile and follow the prompts in the ADOOZY app.

SETTING UP YOUR DEVICE

- 
Scan the QR Code
 Use the app to scan the QR code on your docking station.

- 
Connect to Wi-Fi
 Follow the in-app steps to connect your docking station to Wi-Fi.

- 
Choose your Release Mode
Auto-Release Mode
 Power banks automatically eject once fully charged and ready to use.
Scan-to-Release Mode
 Power banks stay securely locked until released through the app.

NO POWER? NO PROBLEM.

If you ever need to manually release a power bank during a power or internet outage, use the silver emergency eject pin stored underneath the docking station.

Look for the **Emergency Eject sticker** on the side of the unit, peel it back, and insert the pin into the port underneath the docker to manually release the power bank.

Emergency
Eject

MANAGE DOCKER

YOUR ADOOZY APP GIVES YOU **FULL CONTROL** OVER HOW YOUR DOCKING STATION WORKS.

GENERAL SETTINGS

- 1 Open the ADOOZY app 
- 2 Select your Docking Station 
- 3 Tap **Manage Docker**
- 4 Click the **+** on Settings
- 5 To get this **Dropdown Menu**:

A LIGHTS

Turn the docking station lights on/off.

Perfect for:

- Reducing brightness at night
- saving energy
- keeping things a little more low-key

B QR SCAN

Control whether power banks can be released by scanning the QR code.

ON: Approved users can scan and release power banks using the ADOOZY app.

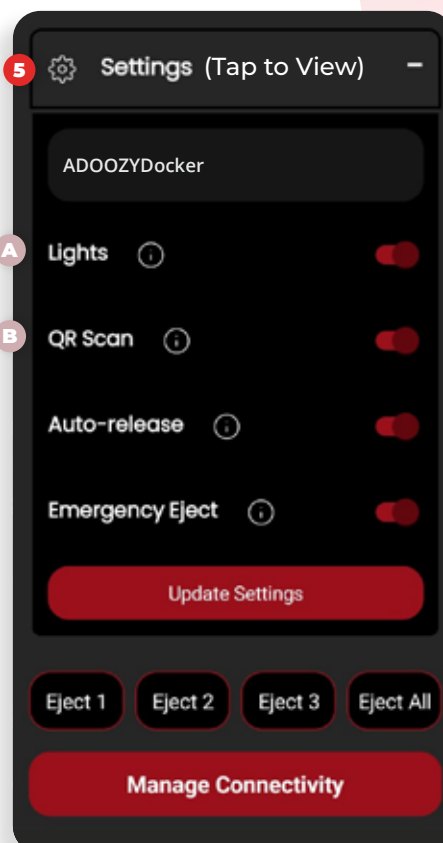

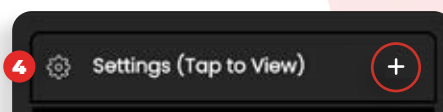

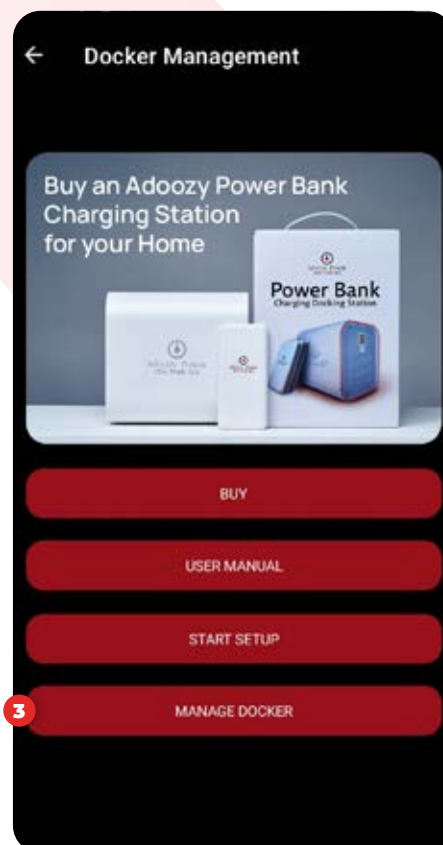

This is ideal for:

- Families
- Shared homes
- Offices
- Shared workspaces

OFF: Only the owner can release power banks through the app controls.

This is ideal when:

- You want more security
- You do not want guests or colleagues accessing your power banks
- You want full owner-only control

C AUTO-RELEASE

Choose whether power banks automatically eject once fully charged.

ON: Power banks automatically eject and are ready to grab and go.

OFF: Power banks remain securely locked until manually released.

D EMERGENCY EJECT

Enable or disable the emergency eject function.

ON: Power banks can still be manually released during:

- Internet outages
- Wi-Fi interruptions
- Load shedding scenarios

OFF: Manual emergency release is disabled for added security.

This may be useful if:

- You are in a public/office environment
- You want to prevent unauthorised access
- You are concerned about theft

E MANUAL EJECT BUTTONS

The app also includes manual eject controls:

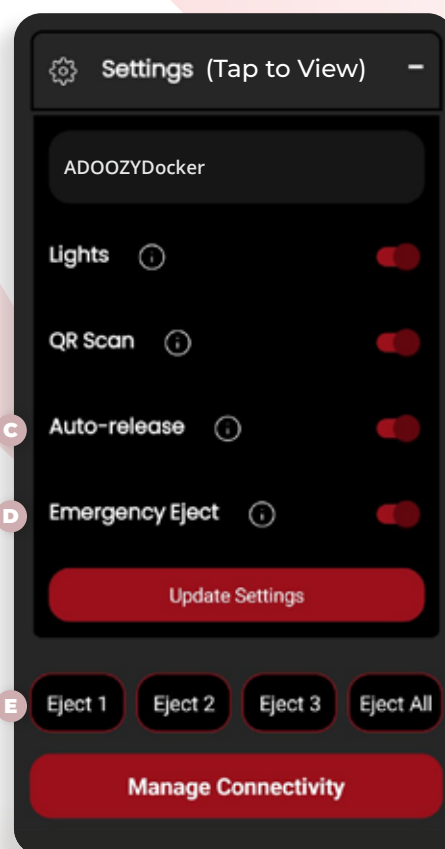

Eject 1

Eject 2

Eject 3

Eject All

These allow the owner to release power banks directly from the app at any time.

SMART CONNECTIVITY

Your docking station works through both Wi-Fi and Bluetooth.

- Wi-Fi allows remote management through the app
- Bluetooth acts as a backup during internet or power interruptions

So even during load shedding, you're never left disconnected.

MANAGE CONNECTIVITY

Moved homes? Changed Wi-Fi?

Tap Manage Connectivity in the app to:

- connect to a new Wi-Fi network
- update your Wi-Fi password
- or reconnect your docking station

ADVANCED SETTINGS

Firmware Updates

Keep your docking station updated with the latest features and improvements.

Factory Reset

Restore the docking station to its original settings.

Unlink Device

Want to pass your docking station on to someone else? Simply unlink the device from your account so the new owner can set it up as their own.

Rest & Unlink

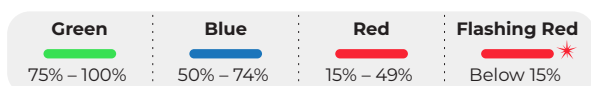

Fully reset the docking station and remove it from your account in one step.

Perfect for:

- Gifting the unit
- Setting it up as a brand-new device for another user

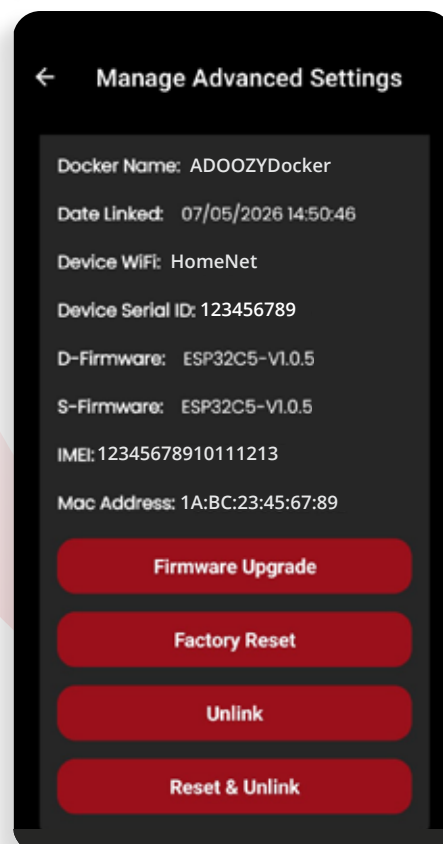

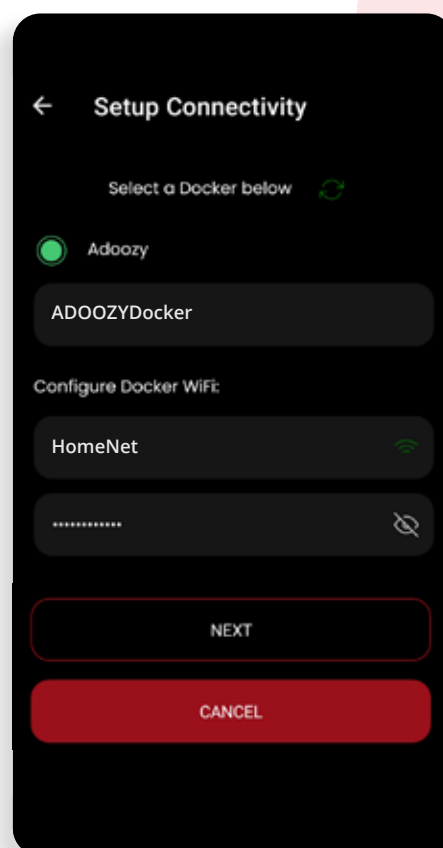

BATTERY INDICATOR GUIDE

Your power bank includes a built-in battery indicator:

CONNECTIVITY:

Supports 4G and 5G networks

NO POWER?
NO PROBLEM.

The ADOOZY Power On the Go Docking Station runs for approximately 12 hours on backup power.
